Work Experience

Healthkart

Software Development Jan 2023 - Jul 2023
Engineer Intern

Led an anomaly detection project, leading to a 30% reduction in API request spikes and errors. Successfully implemented an Isolation Forest model with an exceptional 95% accuracy rate in anomaly detection. Employed advanced data preprocessing techniques to clean and optimize raw data for machine learning, ensuring high-quality input data. Engineered feature enhancements to significantly boost accuracy and efficiency. Proficiently deployed sophisticated ML models on AWS for real-time predictions, resulting in operational excellence.

- Python
- Machine Learning
- Kafka
- ETL
- Docker
- Flask

Education

KIET Group Of Institution, Delhi Aug 2019 - Jul 2023
NCR

- Artificial Intelligence
- Data Structures & Algorithm

Bal Bharti Senior School, Mar 2016 - Apr 2018
Pryagraj

Skills

Python

Advanced

JavaScript
